For Immediate Release

St. Johns County Disaster Debris and Household Waste Collection Schedules

St. Johns County, FL – For customers of St. Johns County solid waste services, Republic Services and Advanced Disposal have established temporary debris and household waste collection schedules in response to Hurricane Matthew. Please see below for the updated schedules:

Curbside Collection of Storm Debris

Private contractors will begin collecting storm-related debris (branches, limbs, brush, leaves, and routine yard waste) throughout St. Johns County on Monday, October 10. During this emergency collection period, storm debris must be piled at the curb. Please do not place debris in garbage bags or barrels, or mix household garbage or construction materials with storm debris. Household trash, and bagged debris of any kind, will not be picked up with storm debris. Contractors will make multiple passes through neighborhoods, so residents can continue moving storm debris curbside until cleanup is complete.

Post-Hurricane Trash and Recycling Collection Schedule

Garbage collection resumes Monday, October 10, and will follow a special post-hurricane schedule:

Monday, October 10

Residents who did not receive garbage collection services on Thursday, October 6 and Friday, October 7 will have their garbage collected on Monday, October 10.

Tuesday, October 11

Standard garbage pick-up schedule resumes. Residents who would have had their garbage collected on Monday, October 10 and Tuesday, October 11 will have their garbage collected on Tuesday, October 11.

Wednesday, October 12

Recycling collection resumes and will follow the standard schedule. There are no make-up days for missed recycling collection.
