

Vilano Boat Ramp Improvement Projects Update

Public Rescue Dock:

- Construction is underway.
- The east floating dock is fully accessible.
- A majority of the parking lot south of the bait shop and east of the pavilion will remain closed during construction.
- For safety, all pedestrian and motor vehicle traffic must not enter the construction area.
- Construction of the dock is scheduled to be complete by the end of August.

Floating Docks Replacement:

- The County has an executed contract with Rush Marine for replacement of the two floating docks, and the Notice to Proceed will be issued on or before June 9.
- Once the Notice to Proceed is issued, the lead time for material delivery will be confirmed, and the installation date will be planned.
- The west floating dock is currently inoperable.
- Options are being explored to make the west floating dock useable during the replacement period.
