*Those certified as a Contractor I, II, & V, as defined in FSS 633.102 may install any underground system.*

*Those certified as a Contractor IV, as defined in FSS 633.102 may install underground systems for detached one and two family dwelling and mobile sprinkler systems.*

Pursuant to FSS 633.226 "A licensed plumbing contractor is not required to be certified under this act to install standpipe systems and the following items connected thereto: overhead and underground water mains, fire hydrants and hydrant mains, hose connections, tanks and pumps; including sprinkler heads in trash chutes and in trash rooms, having no connection to an automatic sprinkler."

**All work will comply with NFPA 24, Standards for the Installation of Private Fire Service Mains and Their Appurtenances, 2002 Edition. NFPA 20, Standard for Installation of Stationary Pumps for Fire Protection, of the most current edition adopted by the State of Florida.**

**FEES: Private Fire Service Water Main = \$75.00; Fire Pump= \$100.00; Standpipe= \$38.00**

**Private Fire Service Water Main** fees cover the review of the plans of 1 system, 1- visual inspection, 1-hydro test, and the final inspection. Additional inspections requested by the contractor will be assessed as an additional inspection fee of **\$55.00** per request.

**Fire Pump** and **Standpipe** fees cover the review of the plans and the final function inspection.

**Revised plan review following approval** will have a flat fee of **\$68.00** (This covers the review of plans)

**Additional after hours & weekends inspections** will have a **\$195.00** minimum, paid in advanced. After 2 hours on site, **\$54.00/hr** will apply.

**Re-inspection for unprepared sites** will be **\$55.00** for the first inspection and **\$112.00** for each **additional** unprepared site inspection.
